

AT WEST POINT ...

**DUTY** ... IS WHAT WE DO.  
**HONOR** ... IS HOW WE DO IT.  
**COUNTRY** ... IS WHY WE DO IT.

West Point is unique. Since 1802 it has enjoyed a reputation for academic excellence, physical challenge, and unsurpassed preparation for Army leadership.

During four years of preparation for a career of service as an Army officer, you are challenged by an academic curriculum that offers a balanced education in the humanities and sciences, while also permitting you to pursue academic specialization. With more than 40 majors from which to choose, the West Point academic program provides depth and diversity.

As a junior, you may compete for a Truman Foundation scholarship; as a senior you may seek graduate study opportunities from Rhodes, National Science Foundation, Marshall, George Mitchell, Rotary Foundation, Hertz, Churchill and East-West Center scholarships.

Upon graduation, you will be rewarded with a Bachelor of Science degree and a commission as a second lieutenant in the US Army. Most graduates who remain in the Army after

the initial five-year obligation obtain advanced degrees at civilian universities.

Preparation for West Point requires a sound secondary school education. It is recommended that applicants complete four years of mathematics, including trigonometry; four years of English; four years of science, including two years of laboratory science, such as chemistry and physics; two years of a foreign language; and one year of history. You will also find it helpful to take a precalculus or calculus course and a basic computer course, if offered at your school.

If you complete college-level courses before entering West Point, you may be able to validate your course work to obtain advanced placement, but you must complete four full years at West Point in order to graduate. Participating in school, church, scouting, and community activities

ties will help you build a strong foundation in leadership. Active participation in sports is, by far, the best preparation for West Point's rigorous physical development program.
